

SAFETY, HEALTH AND ENVIRONMENT POLICY

At Dulux AcraTex we believe all work related injuries, illnesses and environmental incidents are preventable.

We will manage all our activities with concern for people and the environment and will conduct our business for the benefit of society and without compromising the quality of the life of future generations. In particular we will:

- Strive to ensure our facilities operate within all applicable laws and to the highest standards to protect our employees, contractors, neighbours and the environment.
- Continue to seek ways to efficiently use materials and energy.
- Sell only those products that can be produced, transported, stored, used and disposed of safely.
- Provide appropriate information and/or training on the safe use and disposal of our products to our customers and consumers.
- Seek to develop new or improved products and processes to improve the contribution we make to the quality of peoples lives and to minimise the impact on the environment.
- Require every employee and contractor working for us to comply with relevant legislation and with this policy and provide them with the necessary training to do so.
- Encourage employee initiatives that contribute to a safer and improved environment at work, at home and in the community.
- Set improvement targets and measure progress to ensure we continuously improve our safety, health and environmental performance, including prevention of pollution.
- Communicate openly about our activities and report progress on our safety, health and environment performance.

We make this commitment to our employees, contractors, customers, shareholders and the community as we work towards our vision of “A Future Without Harm”

**PHILIP WHITE
GENERAL MANAGER, DULUX ACRATEX**

Date: February 2019

This policy will be reviewed at least annually.
